OSHA Outreach Training

OSHA – 10 Hour Construction Industry Outreach Training

This course is designed for construction workers, foremen, job supervisors, and anyone involved in the construction industry. OSHA recommends Outreach Training Program courses as an orientation to occupational safety and health for workers covered by OSHA 29 CFR 1926. Workers must receive additional training, when required by OSHA standards, on the specific hazards of the job. Upon successful completion of the course, participants will receive an OSHA 10-Hour Construction Outreach DOL course completion card within 4-6 weeks. **This course is also available in Spanish.**

OSHA – 30 Hour Construction Industry Outreach Training

The OSHA 30 Hour Construction Industry Outreach Training course is a comprehensive safety program designed for anyone involved in the construction industry. Specifically devised for safety directors, foremen, and field supervisors; the program provides complete information on OSHA compliance issues. OSHA recommends Outreach Training Programs as an orientation to occupational safety and health for workers covered by OSHA 29 CFR 1926. Construction workers must receive additional training, when required by OSHA standards, on specific hazards of the job.

OSHA – 10 Hour General Industry Outreach Training

This course is ideal for supervisors with safety and health responsibilities and for employee safety and health awareness. Students will be introduced to OSHA policies, procedures and standards as well as general industry safety and health principles covered in OSHA Act Part 1910. Special emphasis will be placed on areas most hazardous using OSHA standards as a guide. Upon successful completion of the course, participants will receive an OSHA 10-Hour General Industry Outreach DOL course completion card within 4-6 weeks.

OSHA – 30 Hour General Industry Outreach Training

The OSHA 30 Hour General Industry Outreach Training course is a comprehensive safety program. Specifically devised for safety directors, Operations Management and floors supervisors; the program provides complete information on OSHA compliance issues. OSHA recommends Outreach Training Programs as an orientation to occupational safety and health for workers covered by OSHA 29 CFR 1910. General industry workers must receive additional training, when required by OSHA standards, on specific hazards of the job.

OSHA Train the Trainer

OSHA 500 Trainer Course for Construction

Upon completion of the OSHA 500 Trainer course, you will be able to teach the 10 and 30 hour Construction Outreach Training Programs and issue cards to participants to verify completion. OSHA campus offers this course in partnership with the Rocky Mountain Education Center (OSHA Training Institute Education Center Region VIII).

OSHA 501 Trainer Course for General Industry

Upon completion of the OSHA 501 course, the student will be able to teach the 10 and 30 hour General Industry Outreach Training Programs and issue cards to participants to verify completion. OSHA campus offers this course in partnership with the Rocky Mountain Education Center (OSHA Training Institute Education Center Region VIII).

EZ OSHA Live Instructor Training by EZOSHA.com

EZ OSHA Live Web Training is the ideal solution for any business. Training is provided by a LIVE instructor via the internet using an audio/video connection, allowing the content to be customized specifically to address your company's operations and policies. The students actually see the instructor, ask questions, and receive answers in real time. Phone/VOIP, Chat Window, and other instant interaction tools make it fully interactive, even more so than in-person seminars.

EZ OSHA is the only OSHA Outreach Training Provider accepted by OSHA for virtual outreach training.

OSHA – Hazardous Waste Training

Hazwoper 8 Hour Annual Refresher

This course meets the requirements in OSHA 29 CFR 1910.120 for eight hours of annual refresher training for workers at hazardous waste sites. This course is designed for general site workers who remove hazardous waste or who are exposed or potentially exposed to hazardous substances or health hazards. Topics include HAZWOPER regulations, safety and health plans, hazardous chemicals, safety hazards, air monitoring, medical surveillance, site control, decontamination, personal protective equipment, and respiratory equipment.

Course Prerequisite: The 24 or 40 hour HAZWOPER course must be completed before taking the 8 hour refresher course.

Hazwoper 24 Hour Course

HAZWOPER 24 Hour is required for employees visiting an Uncontrolled Hazardous Waste Operation mandated by the Government.

This course covers broad issues pertaining to the hazard recognition at work sites. OSHA has developed the HAZWOPER program to protect the workers working at hazardous sites and devised extensive regulations to ensure their safety and health. This course, while identifying different types of hazards, also suggests possible precautions and protective measures to reduce or eliminate hazards at the work place.

Hazwoper 40 Hour Course

HAZWOPER 40 Hour is required for employees working on a project consisting of Uncontrolled Hazardous Waste Operation mandated by the Government.

This course is specifically designed for workers who are involved in clean-up operations, voluntary clean-up operations, emergency response operations, and storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites. Topics include protection against hazardous chemicals, elimination of hazardous chemicals, safety of workers and the environment and OSHA regulations. This course covers topics included in 29 CFR 1910.120.

Note: Workers must have 40 hrs of initial training before they may enter the site and at least three days of actual field experience under a trained, seasoned supervisor.
**The online course meets the standard requirement of 40 hrs of initial training. The three days field experience under a trained, experienced supervisor is the responsibility of the student employer or potential employer.
