

Hosted Enterprise Learning Management

Simply Better

Imagine a comprehensive online learning management system that didn't take months to set-up, burn your entire annual budget or take a fleet of consultants to run. Enter EKP.360, your answer to the evolution of the mythical corporate LMS platform.

Big Businesses use it, Smart Businesses get it

Used by big and smart businesses all over the world, EKP.360 manages the entire learning process, from learner enrollment to course management and reporting, right out of the box. Store training documents in a central online repository, upload any SCORM, AICC or data file as a learning object and track it all. Create groups of learners by corporate hierarchy and deliver targeted training on-time and under budget.

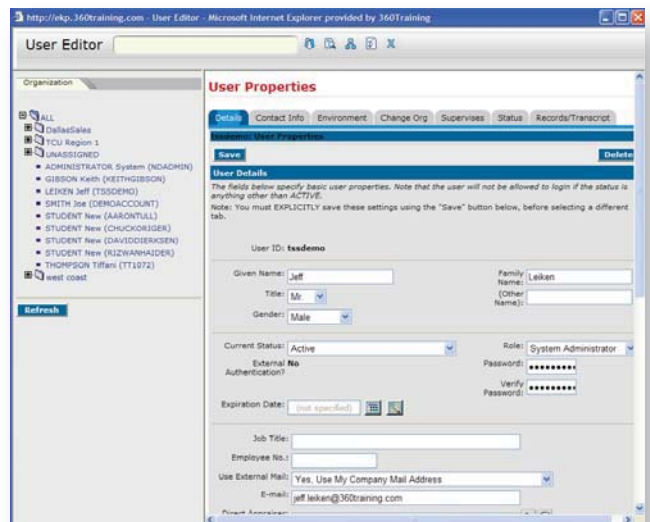

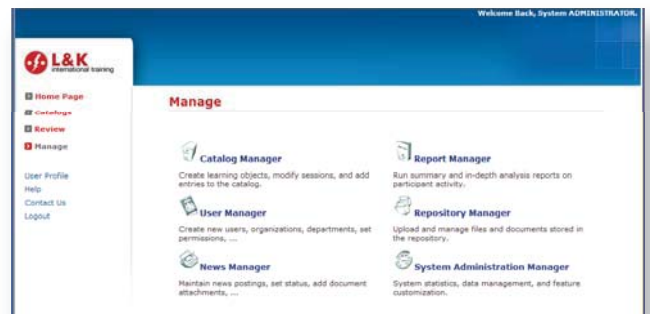

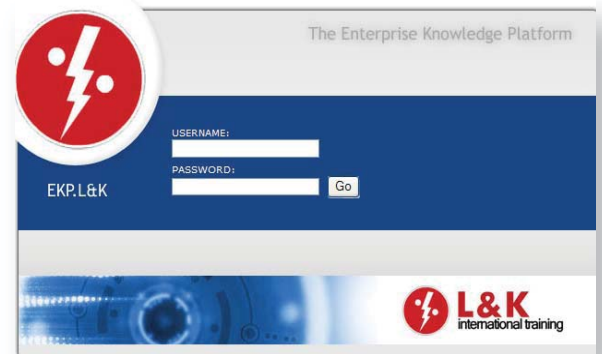

Don't be Fooled

Don't be fooled by our aggressive pricing structure or an alternate over-priced solution driven by corporate marketing hype. Within EKP.360 you'll find a feature-rich application that can manage the learning endeavors of your organization regardless of how large or small the task is.
