

# Healthcare Catalog 2010

**360training.com**

360training.com

Helping healthcare organizations and professionals with continued education, development and training needs.

### 360training.com offers 100% accredited courses

Our courses are certified by ASRT, ARRT, ANCC, NAB and OSHA. This catalog will provide you with a list of our wide selection of courses for skilled nurses, nurse assistants, social workers and healthcare administration - over 200 courses that cover almost all your staff training needs and which can be taken online or self study.

360training courses are written and produced to provide trainees with a relevant, comprehensive offering that meets industry, federal and state regulations. This includes access to industry relevant hot topics. In addition to Assisted Living, Home Health and Long Term Care courses, 360training.com offers a suite of industry-relevant products which include Nursing, Respiratory, Radiology, Lab Tech, OSHA safety training courses and more! These offerings provide healthcare students with the opportunity to satisfy numerous continuing education requirements.

If off-the-shelf course content does not meet your specific needs, the 360training course production services team is available for the development of custom courses focusing on topics directly relating to your organizations' business procedures and policies.

### Your satisfaction is guaranteed

Our satisfaction guarantee is unsurpassable. We collect your student's feedback at the end of every course. If your students have a satisfaction rating below 70% for a 12 month period, we will either allow a "no penalty termination" or provide 50% off the next year's fees back to you, guaranteed!

### 360training.com will meet or beat the competition

We are committed to bringing you our outstanding content library at the most competitive prices. If a competitor has offered a lower price, we'll match or beat that pricing. Contact us, we are ready to work with you!

## 360training.com Delivers Products and Services Through Multiple Channels

### Corporate solutions

360training.com can provide your department or entire enterprise with a hosted learning portal featuring a customized catalog of licensing and CE courses. Courses can also be deployed via your Learning Management System.

Key features and benefits include:

- Meet compliance mandates
- Document CE and licensing compliance
- Minimize training delivery costs
- Improve workforce productivity
- Centralize CEU tracking and reporting
- Standardize procedures and processes
- Measure and monitor competencies

Customized e-learning and corporate access accounts are also available services.

### Online CE training offers the power of full-system support

To deliver these courses and the system support required to successfully manage your compliance training needs, 360training customers are able to leverage:

- Power of our tier-one collocation facility
- Fully equipped with best-in-class web and database servers
- Data security
- Performance monitoring
- Redundant systems
- Data backup and storage

It's all part of the engine that has been serving multiple industries for over 10 years. Most importantly, all e-learning infrastructure is supported by experienced technical staff, account management and 24/7 customer support staff.
