Why 360training?

We provide a comprehensive library of online training courseware in multiple industries. 360training.com offers online Environmental Health and Safety compliance training. This catalog also covers Canadian Safety Training, DOT Training, Supervisor Certification, Outreach Training, HAZWOPER and over 100 individual general industry and construction courses. In addition we provide an intuitive Learning Management System (LMS) to help you easily manage your corporate and individual online training needs.

"Do It Yourself" Courses

Flexibility and convenience for a seasoned workforce

360training "Do It Yourself" courses put you in control of your learning experience—what, where, when, and how. Content is provided in PDF format—so you can access the course online or off, whether you're traveling, grabbing a bite to eat, or just kicking back at the end of the day. Expert online assessment tools help you identify areas of weakness and address them to attain mastery. Nothing could be more convenient—or allow you greater flexibility in your training experience.

Learning Center Courses

Support for deeper application and exploration

360training "Learning Center" courses help take your learning to the next level. These carefully constructed online courses guide you from the rules and facts you need to know to the real-world applications and mission-critical issues you'll encounter in the workplace. Interactive scenarios encourage exploration and consideration of outcomes. Comprehensive assessment tools fine tune and deepen your understanding. A PDF transcript of the course offers the convenience of offline or desktop study. For the full experience, go with a "Learning Center" course.

Customer Support

It is our goal to meet and exceed the expectations of our customers by providing consistent communication and support for all 360training services in a professional, competent, and timely manner. Our goal is to have people become "learners for life", with us as their trusted content partner.

We recognize that many of our customers are taking required Continuing Education for which there is a deadline for completion and that this can make for high stress situations – that's why we've reduced the issues that drive support calls as well as ensure adequate, 24/7/365 staffing at our contact centers.

- Volume and multi-user discounts
- Bulk Enrollment Registration
- Pre-paid course vouchers available
- Occupation-specific and OSHA-compliant courses
- Customized corporate learning portals, courses, and class development

OSHA Outreach Training

As a recognized IACET provider, we offer online OSHA-accepted 10 and 30-hour training courses, and supplemental print study guides for both general industry and construction.

Our 10 Hour Outreach program are intended to provide entry level workers general awareness on recognizing and preventing hazards. The training is intended as an orientation to occupational safety and health with an emphasis on hazard identification, avoidance, control and avoidance. **Workers must receive additional training on hazards specific to their job.**

Our Comprehensive 30 hour Outreach program are intended to provide a variety of training to workers with some safety responsibility such as safety directors, foremen and field supervisors. The training is intended as an orientation to occupational safety and health. Workers must receive additional training on hazards specific to their job.

Supervisor and Competent Person Training

Supervisors, foremen, safety coordinators, and directors looking to further their knowledge of OSHA standards can become prepared to operate as a competent person on site, using these courses. Course titles include Fall Arrest Systems and OSHA'S Electrical Standards with optional CD supplements. Courses were created in partnership with the Rocky Mountain Education Center (OSHA Training Institute Education Center Region VIII).

OSHA Hazardous Waste Training

OSHA has developed the HAZWOPER program to protect workers at hazardous sites and has devised extensive regulations to ensure their safety and health. Our online HAZWOPER courses were created in compliance with OSHA's HAZWOPER Standard (29 CFR 1910.120). Choose from the 24 or 40 hour initial courses or the 8 hour annual refresher course.

OSHA General Industry and Construction Training

Subscribe to our online safety training library offering over 50 general industry and construction safety courses to satisfy and standardize all of your compliance training needs without sacrificing valuable time and money. All courses provide a unique learning experience with instant online grading and printable completion certificates. Courses are hosted on-demand on your learning system or ours.

Construction Project Management Training

Offered in conjunction with the Associated General Contractors of America, we offer web-based construction project management courses to help you stay within boundaries of budget, safety, and timeliness. Our construction project management training is developed to help your organization plan, manage, and conduct construction projects efficiently and effectively through proper utilization of equipment and human resources. Course titles include Equipment Utilization for Project Managers, Conducting Effective Meetings, Preplanning, Short Interval Planning (SIP), Written Communications, Underlying Studies for Heavy/Civil Construction, and Underlying Studies Building Construction.

AGC of America
THE ASSOCIATED GENERAL CONTRACTORS OF AMERICA
Quality People. Quality Projects.

Green Building

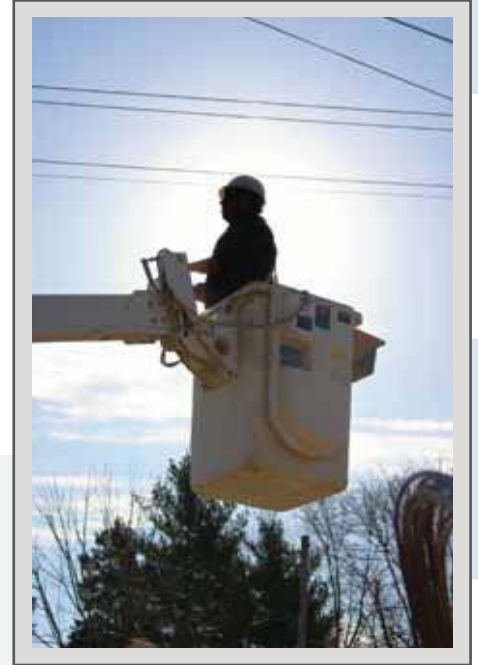

With over 50 hours of training in this library, our green building training courses offer everything your organization needs to begin saving green in more than just one way when you build. Aside from the obvious benefits of preserving the environment, the long-term economic benefits of green building are incentive enough for informed people to utilize green building principles in new construction and remodeling projects of all types. Course titles include Green Infrastructure Guidelines Certification, Green Building Commercial Certification, Residential Green Remodeling and Design, Construction, Certification, Green Building: Building Energy Use, Green Building: Commercial High Performance Guidelines, and many more. Many of our courses are approved through the United States Green Building Council.

Electrical Training

Our online library of electrician training courses offers professional development and continuing education. We also offer state-specific electrician CE. Course titles include NFPA 70E, NEC 2008 Code Update, NEC 2008 Grounding and Bonding, NEC 2008 Wiring and Protection, and Electrical Fundamentals.

Environmental

These courses are designed for workers who deal with hazardous waste, waste water, and other substances that have potential environmental impact. This library is comprised of training related to environmental protection compliance, hazardous waste training, The Clean Air Act, RCRA, The Clean Water Act, and much more. Course titles include Certified Environmental Specialist, Health Effects of Asbestos, Risk Management Program Compliance, and many more.

DOT Training

Dot regulations cover a broad spectrum of topics which include but are not limited to employee drug testing, fleet management, and hazardous materials transportation. Our DOT training library is designed to help you meet your DOT training requirements. Featured courses included:

- What Dot Supervisors Need to Know About Reasonable Suspicion Testing

Corporate Programs

Corporations and their workforces rely on 360training.com's expansive courseware library, e-learning platforms and professional services solutions to streamline employee training, risk management, corporate compliance, licensing, continuing education and employee training.

Flexible Licensing and Payment Options

Corporate customers have flexible licensing and payment options available to access 360training.com's library of over 3000 e-learning modules for ethics, compliance, pre-licensing, continuing education, certification, safety, skills, maintenance training and more.

- **Pay-per-view:** Purchase any single course or multi-course package for your group of users via credit card from one of over 20 industry leading learning portals segmented by industry. Discounted group rates apply based on volume. Courses are fulfilled and tracked via our hosted LMS.
- **Library subscription:** Tailor and customize an entire course library for your organization on a subscription basis. Courses are fulfilled and tracked via our hosted LMS. Pricing is based on a per-seat, per-year basis for unlimited annual access to courses available in your library.
- **Perpetual licensing:** Obtain a perpetual unlimited use license to install, run and host a 360training.com course on your internal LMS. One-time purchase price applies and varies by course. Optional annual support and maintenance contracts are available for this method of course licensing.

Group Rates and Volume Incentives

Receive discounted pricing on your staff's required trainings using our group rates and volume incentives. You may purchase online courses for groups as small as 3 or as large as 1000. Choose from single courses, multi-course packages or entire course libraries. Pricing varies by industry and discipline, check with your account executive for more details. Courseware is fulfilled via any of the licensing methods described above.

Customized Training Delivery

Build a customized course curriculum for your users by selecting courses from our e-learning library to design learning paths tailored for your users and based on your requirements. Additionally, through our in-house production and instructional design divisions, we are pleased to offer customized course development services to convert any of your offline content into an effective SCORM-compliant, e-learning format based on a variety of interactivity levels.

Standard services include: project management, instruction design, visual design and solution architecting, copyediting, quality assurance, testing services and deployment. We work collaboratively with business stakeholders and subject matter experts to understand the business drivers behind your training needs and then map specific, actionable learning objectives to the business drivers. Whether we are leveraging existing content or starting from a blank slate, our team determines the appropriate learning strategies, visual design approach, and technical architectures to achieve our client's learning and business goals.
