# About 360training.com

360training.com is a privately held, leading provider of online and classroom delivered training; learning and content management software; and enterprise compliance and risk management solutions. Since 1997, our course libraries have grown to include more than 15 verticals and 6,000 individual titles.

Over 3,000,000 learners have chosen 360training.com to satisfy their training needs. Top-selling courses include OSHA 10-Hour Construction Outreach Training, OSHA 30-Hour Construction Outreach Training, OSHA 10-Hour General Industry Outreach Training, OSHA 30-Hour General Industry Outreach Training, 40/24/8-Hour HAZWOPER, General Safety, DOT Compliance, and MSHA Training.

## Company History

Established in Austin, TX in 1997, 360training.com has grown steadily to become a market leader in the delivery of online training, corporate compliance solutions, and risk management software. Originally conceived to serve the real estate licensing market, the founders quickly realized the potential in expanding to include other precicensing programs in industries such as insurance and financial services.

The company initially started out with a pure VAR model, letting others sell their content, but capitalized on the rapid shift of training to an online delivery mode. Early success with training courses in OSHA safety, trades & technical, and cosmetology solidified 360training.com's position as a major player in the online education market.

One of the company's founders, Ed Sattar, remains the CEO and has twice been nominated for the Ernst & Young Entrepreneur of the Year award. 360training.com also has appeared on the Deloitte Fast 50 as the 6th fastest growing company in Texas.

## Key Industries

With courses and training solutions for consumers, corporate, and governmental entities, 360training.com serves a wide range of industries, including:

- Career Training
- Cosmetology
- Environment, Health & Safety
- Ethics & Compliance
- Financial Services
- Food & Beverage
- Healthcare
- Industrial Trades
- Insurance
- Information Technology
- Oil & Gas
- Power & Utilities
- Quality Management
- Real Estate

## Future

In the coming years, 360training.com plans to continue to serve our customers with an emphasis on expanding corporate compliance offerings, including a regulatory knowledgebase and risk assessment toolkit.

## Occupational Health and Safety Training

■ = English only, E = English, S = Spanish, F = Filipino

### 10 and 30-Hour OSHA Outreach Training

The 10-hour training is designed for entry-level workers, so they have an understanding of work hazards, appropriate OSHA policies and procedures, and safety and health principles. The 30-hour training is a more comprehensive program designed for foreman, engineers, supervisors, project managers, and safety specialists. Upon successful completion of the course, students will receive a Department of Labor (DOL) course completion card within 4-6 weeks.

Hours	Course Title	Web	Online Video	CD	Mobile
10	10-Hour Construction Safety OSHA Outreach	■			■
10	10-Hour General Industry OSHA Outreach	■			■
30	30-Hour Construction Safety OSHA Outreach	■			■
30	30-Hour General Industry OSHA Outreach	■			■

### Confined Space Entry Training

The Confined Space Entry training is for industries that operate in confined spaces. Our courses will help students abide by federal guidelines, as well as understand the basics of confined space entry and the safety measures needed to avoid accidents.

Hours	Course Title	Web	Online Video	CD	Mobile
8	Confined Space Entry Training	■			
8	Confined Space Entry Training for Construction	■			

### Construction Safety Training

The Construction Safety courses provide training for construction workers. Our courses will cover topics such as ladder safety, fall protection, heavy equipment safety, cranes and rigging, electrical and hand power tools. Students will learn to identify and reduce the risks associated with job site hazards.

Hours	Course Title	Web	Online Video	CD	Mobile
10	10-Hour Construction Safety Orientation	S			
1	Accidents - It Can't Happen to Me		■		
1	Basic Safety Orientation	■			
1	Bloodborne Pathogens Construction		■		
1	Concrete and Masonry Construction	■			
1	Confined Space Entry	■	■		
1	Cranes and Rigging	■			
1	Electrical Safety	E, S			
1	Excavation Safety	■			
1	Fall Protection	■			
1	Fire Safety	■			
1	Handling and Storage of Construction Materials	E, S			
1	Hazardous Materials	E, S			

■ = English only, E = English, S = Spanish, F = Filipino

**Construction Safety Training (cont.)**

Hours	Course Title	Web	Online Video	CD	Mobile
1	Health Hazards in Construction	E, S			
1	Lead Safety in the Workplace	■			
1	Materials Handling	■			
1	Occupational Noise Exposure	■			
4	OSHA Focus Four	■			
1	Personal Protective Equipment	E, S			
1	Recordkeeping and Reporting	■			
1	Respiratory Protection	■			
1	Scaffolding Safety	■			
1	Sit-down Forklift	■			
1	Stairway and Ladder Safety	E, S			
1	Stand-up Forklift	■			
1	Struck-by and Caught in Between Hazards	E, S			
1	Use of Explosives in the Workplace	■			
1	Welding and Cutting	■			

**Forklift and Heavy Equipment Training**

The Forklift and Heavy Equipment courses will provide students with the basic knowledge to operate heavy equipment, such as cranes and booms. Equipment differs slightly from job site to job site, so employers will provide hands-on training.

Hours	Course Title	Web	Online Video	CD	Mobile
2	Aerial Lift/Scissor Lift	■			
2	Articulated Boom Truck	■			
2	Boom Truck	■			
2	Overhead Crane	■			
2	Pedestal Mounted Crane	E, S, F			
2	Rough Terrain Crane	■			
2	Sit-down Forklift	E, S, F			
2	Stand-up Forklift	■			
2	Telescopic Handler	■			
2	Utility Truck Crane	■			
2	Vehicle Mounted Aerial Lift	■			

# Occupational Health and Safety Training (cont.)

■ = English only, E = English, S = Spanish, F = Filipino

## General Safety Training

The General Safety courses provide training for general industry workers in industries including, but not limited to, healthcare, manufacturing, distribution, warehouse, and retail. Our courses will cover topics such as confined spaces, fire prevention & safety, heavy equipment safety, proper lifting, NFPA 70E, and OHSAS 18001:2007. Students will learn to identify and reduce the risks associated with workplace hazards.

Hours	Course Title	Web	Online Video	CD	Mobile
1	Bloodborne Pathogens	■			
1	Confined Spaces and Permit Required Confined Spaces	■			
1	Drug and Alcohol Abuse in the Workplace	■			
1	Electrical Safety	■			
1	Emergency Action Plan	■			
1	Ergonomics	■			
1	Ergonomics for Office Workers	■			
1	Fire Protection and Life Safety	■			
1	Formaldehyde Awareness	■			
1	Hand and Power Tool	■			
1	Hazardous Materials	■			
1	Hazardous Substances and Industrial Hygiene	■			
1	Hazards of Asbestos in the Workplace	■			
4	Introduction to OSHA and the OSH Act	■			
2	Introduction to OSHA and the OSH Act	E,S			
1	Ionizing and Non-Ionizing Radiation Safety	■			
1	Lockout/Tagout (LOTO)	■			
1	Machine Guarding Safety	■			
1	Materials Handling and Storage	■			
1	Motor Vehicles	■			
4	Occupational Health and Safety Advisory Services (OHSAS) 18001:2007	■			
1	Occupational Noise Exposure	■			
4	OSHA Focus Four	■			
1	Personal Protective Equipment	■			
1	Process Safety Management (PSM)	■			
1	Recordkeeping and Reporting	■			
1	Respiratory Protection	■			
1	Safety and Health Programs	■			
4	Safety: NFPA 70E	■			
1	Sit-down Forklift	■			
1	Stand-up Forklift	■			

**General Safety Training (cont.)**

■ = English only, E = English, S = Spanish, F = Filipino

Hours	Course Title	Web	Online Video	CD	Mobile
1	Use of Explosives in the Workplace	■			
1	Walking and Working Surfaces	■			
1	Welding, Cutting, and Brazing	■			
1	Workplace Violence	■			

**Hazard Communications Training**

The Hazard Communications training is designed to help communicate safety information with the workforce. It discusses the employees' right to know about the properties and effects of chemicals and other hazardous substances. The Hazard Communication Standard is helping companies take greater control of chemical information and develop programs for their employees' safety.

Hours	Course Title	Web	Online Video	CD	Mobile
1	GHS and OSHA Hazardous Communication	E, S			

**HAZWOPER Training**

HAZWOPER training will teach students how to protect workers when in dangerous situations. The courses are designed to comply with federal regulations and ensure the worker's safety and health.

Hours	Course Title	Web	Online Video	CD	Mobile
24	HAZWOPER 24-Hour	■			
40	HAZWOPER 40-Hour	■			
8	HAZWOPER 8-Hour Annual Refresher	■			

**Supervisor and Competent Person Training**

Supervisor and Competent Person training will help supervisors, foremen, safety coordinators and directors who are interested in furthering their knowledge of OSHA standards and guidelines. Students who complete the training may become leaders on their job sites.

Hours	Course Title	Web	Online Video	CD	Mobile
24	Electrical Standards - RMOL 5903	■			
24	Fall Arrest Systems - RMOL 0113	■			

# Environmental Health and Safety

## Environmental Safety

■ = English only, E = English, S = Spanish, F = Filipino

### Asbestos Safety Training

The Asbestos Safety course teaches students the proper handling of asbestos, a hazardous substance widely used in the construction industry. This course introduces students to the hazards of asbestos and provides information on how to reduce asbestos exposure.

Hours	Course Title	Web	Online Video	CD	Mobile
1	Hazards of Asbestos in the Workplace	■			
1	Legal Liabilities of Asbestos Inspectors	■			

### Environmental Compliance Training

The Environmental Compliance courses will satisfy a company's environmental compliance requirements. The courses include various topics, such as OHSAS 18001, ISO 14000, and the Resource Conservation and Recovery Act (RCRA). Students will learn the environmental requirements, so they can comply with government regulations.

Hours	Course Title	Web	Online Video	CD	Mobile
8	California 8-Hour Resource Conservation and Recovery Act (RCRA) Refresher	■			
24	Certified Environmental Specialist	■			
3	Emergency Planning and Community and Right to Know Act	■			
4	Identifying Your Hazardous Wastes	■			
6	Introduction to International Organization for Standardization (ISO) 14000	■			
4	Introduction to Occupational Health and Safety Advisory Services (OHSAS) 18001	■			
8	Resource Conservation and Recovery Act (RCRA) 8-Hour Refresher	■			
2	Resource Conservation and Recovery Act (RCRA) in Day-to-Day Operations	■			
4	Resource Conservation and Recovery Act (RCRA): What the Law Requires	■			
2	Spill Prevention and Release Reporting	■			
2	Spill Prevention, Control, and Countermeasure	■			
2	Stormwater Discharges and Permits	■			
8	Stormwater Management During Construction	■			
2	The Clean Air Act	■			
2	The Clean Water Act	■			
4	The Clean Water Act and Day-to-Day Requirements	■			

■ = English only, E = English, S = Spanish, F = Filipino

## Industrial Hygiene Training

The Industrial Hygiene course teaches students how to deal with hazardous substances in order to avoid the negative effects on health. Topics covered include using personal protective equipment, cleaning procedures in the event of hazardous material exposure, and recording an incident of workplace exposure.

Hours	Course Title	Web	Online Video	CD	Mobile
1	Industrial Hygiene: Basic	■			
6	Mold Inspector Certification	■			

## UST Operator Training

Underground storage tank (UST) owners and operators are required to take approved UST Operator training in compliance with state and federal regulations. These courses teach students how to avoid and reduce releases of fuel products and minimize the environmental damage caused by gas leaks.

Hours	Course Title	Web	Online Video	CD	Mobile
4	Illinois Class A/B UST Operator Certification	■			
0.5	Maryland Underground Storage Tank Class C Operator Certification	■			
4	North Carolina Class A/B UST Operator Training and Exam Certification	■			
0.5	North Carolina Class C UST Operator Certification	■			
3	Ohio Class A/B UST Operator Certification	■			
4	Texas Petroleum and Convenience Store Association (TPCA) Class A/B UST Facility Operator Training Course	■			
0.5	Underground Storage Tank Class C Operator Certification	■			
3	Utah Class A/B UST Operator Training and Exam Preparation	■			

# Environmental Health and Safety

## Mine Safety Training

■ = English only, E = English, S = Spanish, F = Filipino

### Surface Miner Training

The Surface Miner courses are designed in compliance with MSHA Part 46 regulations. Our courses will help miners learn safety and protective measures when doing activities in mines. MSHA requires all miners and surface mine contractors to abide by MSHA Part 46 rules and take a mine safety training course.

Hours	Course Title	Web	Online Video	CD	Mobile
0.5	Chemical Hazards	■			
0.5	Hazard Communication and Recognition	■			
0.5	Site Rules and Reporting Hazards	■			
0.5	Electrical Hazards	■			
0.5	Surface Mines - Physical Characteristics	■			
0.5	Emergency Procedures	■			
0.5	Rights of Miners and their Representatives	■			
0.5	Surface Mines - Types and Operations	■			
0.5	Environmental Hazards	■			
1	Mining Equipment	■			
1	Equipment Guarding	■			
1	Equipment Hazards	■			
0.5	Physical Hazards	■			
0.5	MSHA Surface Miner Training Overview	■			
0.5	Line of Authority	■			

# Environmental Health and Safety Transportation Safety Training

■ = English only, E = English, S = Spanish, F = Filipino

## Driver Safety Training

Driver Safety training helps drivers improve their driving skills, as well as understand the rules and laws. It will enhance professional drivers' skills, making them sharper and more aware when on the road.

Hours	Course Title	Web	Online Video	CD	Mobile
2	Bill Judge's DOT 60/60 Supervisor Training	■			

# Environmental Health and Safety

## Canada Health and Safety Training

■ = English only, E = English, S = Spanish, F = Filipino

### Canada Driver Safety Training

The Canada Driver Safety courses are made in compliance with Canadian transportation regulations. Our courses are designed to enhance a driver's skills and teach the rules and laws of the road. These courses benefit commercial vehicle drivers and improve their skills.

Hours	Course Title	Web	Online Video	CD	Mobile
2	Forklift Safety	■			

### Canada Health and Safety Training

The Canada Health and Safety courses are designed in compliance with Canada's safety regulations. Our extensive library of health and safety courses meets the required Canada training needs.

Hours	Course Title	Web	Online Video	CD	Mobile
2	Accident Investigation Reporting	■			
2	Basic Safety Orientation	■			
2	Confined Spaces	■			
1	Electrical Safety	■			
1	Emergency Action Plan	■			
1	Fire Safety	■			
2	Forklift Safety	■			
1	Hazard Communication	■			
1	Hazard Recognition and Assessment Training	■			
1	Joint Health and Safety Committee Terms of Reference	■			
1	Lockout/Tagout (LOTO)	■			
1	Machine Guarding Safety	■			
1	Non-Office Ergonomics	■			
2	Occupational Health and Safety Act Legislative Requirements	■			
1	Personal Protective Equipment	■			
1	Stairway and Ladder Safety	■			
3	Transportation of Dangerous Goods	■			
2	Workplace Hazardous Materials Information System (WHMIS): Right to Know	■			
2	Workplace Inspections	■			
1	Workplace Violence	■
